The Edward T. Hall Aquatic Center is also available as a cooling center. Its hours of operation are Monday-Friday, 6 a.m.-9 p.m., Saturday, 8 a.m.-9 p.m., and Sunday, 8 a.m.-8 p.m.

Emergency cooling centers are opened when the need arises. The Calvert County Emergency Management staff is closely monitoring the National Weather Service's excessive heat warnings and will make a determination to keep certain cooling centers open past normal business hours if the need arises.

Calvert County residents are urged to take the following precautions to protect themselves and their families when temperatures rise:

- Drink plenty of fluids; water is best.
- Avoid beverages containing alcohol, caffeine or large amounts of sugar as they can dehydrate the body.
- Stay in an air-conditioned room or building during the hottest part of the day.
- Stay out of the sun.
- Wear lightweight, light-colored clothing.
- Check on elderly relatives and neighbors.
- Never leave children or pets in parked cars since temperatures can rise to 130 degrees inside vehicles in only a few minutes, even with the windows rolled down.

Heat can affect anyone, but most at risk are the very young, senior citizens and people with underlying health problems. Symptoms of heat illness include heavy sweating, muscle cramps, weakness, dizziness, nausea, weak but rapid pulse and headaches. People with these symptoms should find shade, drink water slowly and make sure there is good ventilation. Those with severe symptoms should seek medical attention.

Pet owners should provide ample shade and water for their pets or bring pets indoors. Any time a pet is outside, make sure it has protection from heat and sun and plenty of fresh, cold water.
