These tools are simply another way to deliver public information, customer service, and E-government to our residents;

WHEREAS, the official County website, www.calvertcountymd.gov and its associated functionality, remains the primary and predominant public source for in-depth information, forms, videos, documents, or online services necessary to conduct business with the County;

WHEREAS, the County supports the use of social media technology to enhance communication, collaboration, and information exchange to meet business mission and goals;

WHEREAS, the County has an overriding interest and expectation in deciding what is "spoken" on behalf of the County on social media sites;

WHEREAS, Calvert County desires to augment traditional communication methods using social media channels as set forth in the Calvert County Government Social Media Policy set forth herein.

NOW, THEREFORE, BE IT RESOLVED that the Board of County Commissioners of Calvert County, Maryland, hereby adopts the following Policy for social media use.

I. Purpose

Calvert County Government (hereinafter "CCG") augments traditional communication methods with the use of social media channels. CCG uses social media to officially and rapidly communicate matters of public interest to stakeholders, partners, the general public, and the media and enhance community relations and customer service. CCG uses social media tools to reach a broader audience. While the County's website (www.calvertcountymd.gov) is the County's primary Internet presence, the County recognizes that, when used appropriately, social media may be useful in furthering CCG goals and the missions of its departments.

II. Policy

The County has an overriding interest and expectation in deciding what is "spoken" on behalf of the County on social media sites. This policy establishes CCG social media use to mitigate associated risks from use of this technology where possible. This policy applies to all employees and approved volunteers, consultants, service providers, and contractors acting on behalf of a County agency or Department. CCG social media sites may contain information that represents or appears to represent the County's position on policy issues or other matters affecting County business.

The County has the right to monitor and restrict employees' social media use on behalf of the County and will exercise this right as necessary. Employees should have no expectation of privacy when utilizing social media on behalf of the County. Social media is not a secure means of communication and shall not be used for any communication other than disclosures of public information, as that phrase is used pursuant to the Maryland Public Information Act, Maryland Annotated Code, State Government Article, §10-612, et seq.

Official CCG presences on social media sites or services are considered extensions of the County's information networks and are governed by the responsibilities set forth in this and related policies and procedures (Technology Security).
