Survey Overview

Today, there is currently no central website or mobile application that lists services for all types of crime. Victims are vastly underserved. In fact, *fewer than one in ten victims of serious violent crime receive assistance from a victim service agency*. Together, Appriss and victim service providers can positively impact this statistic by offering victims a national service provider directory as part of the VINE user experience.

By joining the VINE Service Provider Directory, your organization can connect to VINE users in your state and nationwide. To request inclusion in the VINE Service Provider Directory, complete the following survey. The survey takes approximately 10 minutes to complete.

If you need assistance with the survey, please send an email to [info@appriss.com](mailto:info@appriss.com) with your contact information, and an Appriss representative will be in touch.
